In a classic New England coastal environment.

"One of the Last Great Places"
— The Nature Conservancy

The Block Island Medical Center provides comprehensive

emergency medicine, family medicine and urgent care.

• We are the only source of health care for a

population of approximately 1,000 to its summer

tourist visitors of 500,000.

• In the summer we see from 30-50 patients during per day.

• Moped and boating trauma; beach and water-sports injuries;

Lyme, Babesiosis, E. coli, F. necrophorum, ACS including

AMI's, CVA's and COPD's.

• We are not a hospital and most of what we do is stabilize,

perform acute interventions and transport off by helicopter or plane.

• On site we do our own x-rays and bedside ultrasounds.

• Walk to work from your cottage (15 minutes)

• Housing provided in a beach cottage 2 blocks from the Medical Center.

• 2-3 Brown Med School rotations every month.

• Relaxed, educational, busy and fun atmosphere.

• You carry a radio to respond to emergencies after hours on call days.

• You will work hard but will also have ample time for

hiking, biking, boating.
